| A. Methyl Alcohol (CAS #67-56-1)                                                                       | 3.6g/kg                         | -                      | NE            | NE       | 0.1-0.5  |
| Ethyl Alcohol (CAS #60-29-7)                                                                           | 13.6g/kg                        | -                      | NE            | NE       | 0.1-0.5  |
| Ammonium Hydroxide (CAS #336-21-6)                                                                     | 85mg/kg                         | -                      | 25            | 50       | 25-30    |
| Liquefied Petroleum Gas (CAS #68476-85-7)                                                              | 350mg/kg                        | -                      | (ammonia)     | 1000     | 25-30    |
| Unidentified ingredients are not considered hazardous under the federal Hazard Communication Standard. |                                 |                        |               |          |          |
| Components Listed As A Suspected Carcinogen:                                                           |                                 |                        |               |          |          |

SECTION III - PHYSICAL CHARACTERISTICS

Boiling Point: NA Vapor Pressure (psig): 125@130F Specific Gravity (H2O=1): <1.0  
Solubility/Water: Appreciable Vapor Density (Air=1): >1 Evaporation Rate (Ether=1): <1  
Appearance and odor: Wet misty spray, lemon odor.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Aerosol Flammability: This product is considered to be flammable as described in 40 CFR 156.10.  
Flammable Limits - % Volume in Air (Propellant): LEL: 1.8 UEL: 9.2  
Extinguishing Media: Carbon dioxide, foam and/or dry chemical may be used.  
Special Fire Fighting Procedures: Containers should be cooled with water to prevent vapor pressure build up.  
Use equipment or shielding, as required, to protect personnel from bursting, rupturing or venting containers.  
Unusual Fire and Explosion Hazards: At elevated temperatures (over 54C-130F) containers may vent or burst.

SECTION V - REACTIVITY DATA

Stability: Stable  
Incompatibility (Materials to Avoid): Hazardous Polymerization: NA  
Hazardous Decomposition Products: Strong oxidizers, heat and flame  
Conditions to Avoid: Carbon monoxide, carbon dioxide and additional toxic chemicals may be formed in small amounts.  
Do not store above 54C-130F. Keep away from heat, direct sunlight, open flames or

SECTION VI - HEALTH HAZARD DATA

Route(s) of Entry: Inhalation: X Eyes: X Skin: X Ingestion: X  
Signs and Symptoms of Exposure: Respiratory irritation. High concentrations may lead to drying, irritation  
and dermatitis. Possible skin absorption. Eye contact may cause burning and irritation.  
Medical Conditions Generally Aggravated by Exposure: Preexisting skin or eye disorders may be aggravated by  
Exposure to this product: First Aid Procedures: Eye contact: Flush eyes with plenty of water for 15 minutes while  
flushing eyelids open. Get medical attention if irritation persists. Skin contact: Remove contaminated clothing.  
Flush skin with water. Follow by washing with soap and water. If irritation occurs, get medical attention. Do not  
re-use clothing until cleaned. Inhalation: Remove victim to fresh air and provide oxygen if breathing is difficult.  
Active artificial respiration if not breathing. Get medical attention. Ingestion: Get medical attention.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Leakages or Spilled: Remove all sources of ignition and ventilate area. Soak up spill with an inert absorbent  
and place into a designated disposal container. Consult local regulatory agency for proper disposition of material.  
Waste Disposal Method: Do not puncture or incinerate containers when contents are depleted. Continue to  
depress button until all gas is expelled. Dispose of container in accordance with local, state, and federal  
regulations.  
Handling and Storing: Avoid breathing vapor. Keep away from heat and flame. Use with adequate  
ventilation. Do not puncture or incinerate containers. Do not expose to direct sunlight or store at temperatures  
above 130F (54C). Store as level 2 Aerosol (NFA 308). Please read and follow the directions on the product label; they are your best guide to  
other precautions: Please read and follow the necessary safety precautions to protect your health.  
Selling this product in the most effective way, and give the necessary safety precautions to protect your health.

SECTION VIII - EMPLOYEE PROTECTION

Respiratory Protection (Type): None required if good ventilation is maintained. If exposure exceeds  
occupational exposure limits (Sec. II), use a NIOSH approved respirator to prevent overexposure.  
Ventilation: Local exhaust is adequate under normal conditions, mechanical ventilation is optional.  
Protective Gloves: Optional; chemical resistant gloves.  
Eye Protection: Chemical safety glasses are recommended.  
Other Protective Clothing or Equipment: Wear impervious clothing to prevent skin contact, around chemicals.  
Work/Hygiene Practices: Ensure strict sanitary conditions are conformed to when working around chemicals.  
Protective Clothing and Equipment should be in accordance with 29 CFR 1910.132 and CFR 1910.133.

SECTION IX - OTHER REGULATORY CONTROLS

Governmental Listings: Ingredients of this product are listed on the EPA/TSCA Inventory of Chemical Substances.

SECTION X - TRANSPORTATION REQUIREMENTS (D.O.T. CLASSIFICATION)

Shipping Name: Consumer Commodity Hazard Class: ORA-D
